PROJECTS

Lost & Found AI

A full-stack **AI-powered** lost-and-found platform featuring **semantic text matching**, **OCR**-based label extraction, and **CLIP** cross-modal image similarity, with a **Django REST Framework + PostgreSQL** backend deployed on **Hugging Face Spaces** and **Vercel**.

Smart Agriculture PWA

A bilingual, installable **Progressive Web App** for farmers featuring a **MobileNetV2 CNN** for crop disease detection, a **Random Forest** yield predictor, live weather integration, and **Firebase** authentication.

Legal Metrology AI Sentinel (Under Development)

A mobile-first, **AI-powered** compliance platform that uses **OCR**, **CV**, and **NLP** to detect label mismatches, tampered products, and price manipulation through **anomaly detection**, auto-generating standardized complaints with risk-scored, auditable dashboards for regulators and marketplaces.
